Introduction to the Clinical Experience Sequence

Overview

CalStateTEACH, in collaboration with its school district partners, designs, implements, and regularly evaluates a planned developmental sequence of clinical experiences. In this sequence, candidates have the opportunity to develop and demonstrate the knowledge and skills necessary to educate and support all K-8 students in meeting the state-adopted academic standards.

Course work and clinical experiences in the CalStateTEACH Program are interrelated, emphasizing first-hand experiences in a variety of fieldwork and student teaching settings from the first week of the program to the last. Candidates understand the requirement to apply and implement the knowledge they acquire through academic coursework in their daily teaching situations. The integrated design and application-based nature of CalStateTEACH ensures that all candidates plan and practice multiple strategies for managing and delivering instruction from the beginning to the end of the Program.

Each term provides extensive opportunities to observe, acquire, and utilize important pedagogical knowledge, skills and abilities, focusing on the Teaching Performance Expectations (TPEs). Throughout the program, candidates are given many opportunities to practice and reflect on the TPEs. Candidates complete required experiences with diverse students, English learners, with special-needs students, and with students from families below the federal poverty level. The required experiences give our candidates the opportunity to learn strategies that support the achievement of all students.

As CalStateTEACH teacher candidates, you will learn about social emotional frameworks, linguistic repertoires, including home languages and dialects, and acceptance and encouragement of translanguageing, language development, culturally and linguistically responsive teacher and learning, brain-based learning in the first three weeks of the program. Through your online interactions with the course assignments and your faculty mentor, you will be establishing the program foundations for your interactions with students that you will implement in your lesson planning for all three terms of the program. Your faculty mentor for the academic work will also be your clinical supervisor, allowing for deep learning and opportunities to receive observation feedback and feedback on course assignments as you apply your knowledge, strategies, and skills.

Placement and Supervision

Candidates are supervised by CalStateTEACH faculty and school-based mentors in classrooms throughout the program. Candidates in the student teaching option are supervised during early field experience in Term One, initial student teaching in Term Two, and full-time student teaching in Term Three. Interns and private school teachers, in addition to their CalStateTEACH faculty supervisor, have an onsite support person, the school site mentor, who mentors and observes in their classrooms during each term of the program.

In the intern option, candidates are full-time contracted public school classroom teachers

supported by the program to draw on their academic assignments and discussions in order to plan and practice multiple strategies for delivering classroom instruction that is aligned with the state-adopted content standards and frameworks, that addresses students' needs, interests, and accomplishments, and that accounts for the results of the strategies. Intern candidates may also require an additional placement to assure that the requirements of both an upper and lower grade placement have been met.

Candidates in the private school teacher option are full-time teachers of record. They are supported in their professional growth at their school site by CalStateTEACH faculty and site-based mentors. The majority of their clinical work is done in their school, but they are also required to do a 5 week placement in a public school.

The Student Teaching Option

In Term One, a candidate in the student teaching option completes an early field experience, observing and participating two days per week in a public school classroom. A candidate begins by observing and learning the routines and expectations of the school. Gradually the candidate assumes responsibility for planning and implementing instruction with individual children and small groups. CalStateTEACH assignments are planned in consultation with the mentor teacher and implemented with appropriate groups of students.

When a candidate successfully completes all requirements for Term One, a faculty member recommends advancement into initial student teaching in Term Two. During this time, the assigned faculty member and the mentor teacher assess instructional development based on the TPEs. The Clinical Experience **Evaluation** completed by the mentor teacher and the faculty member at the conclusion of the term, along with academic assessments completed by the faculty, determine the candidate's readiness to advance to full-time student teaching.

In Term Three, candidates begin a minimum ten week, full-time, student teaching placement. Guided by the professional judgment of, and assessments completed by mentor teachers and faculty, a student teacher gradually assumes greater and greater teaching responsibility, continuing to plan and implement CalStateTEACH activities, as well as participate in daily instructional planning with mentor teachers. Both the faculty and the mentor teacher record the candidate's progress using CalStateTEACH lesson plan template. Finally, based on the candidate's demonstrated expertise as observed by the mentor teacher and the faculty member, they assume daily responsibility for whole class instruction for a minimum of four weeks.

School Placements

During early field experience and student teaching assignments, candidates can participate in two or more of the following grade spans: K-2, 3-5, and 6-8 Faculty select sites to ensure that candidates have experience across the specified grade levels. Candidates who are teachers of record, while they are in the program, must have a classroom experience different from the one in which they teach to meet this requirement.

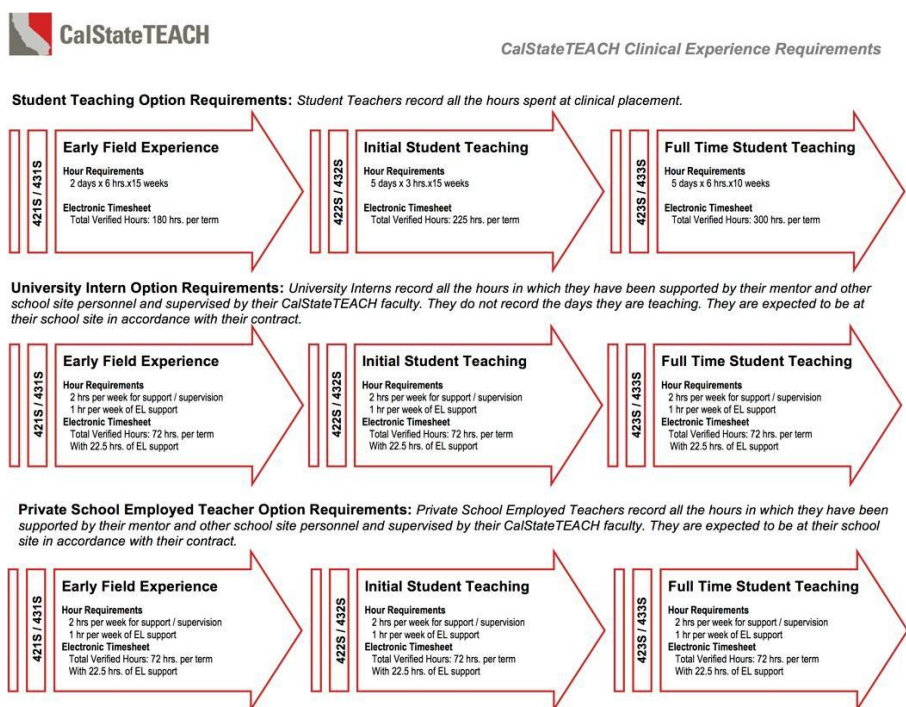

Candidates in the intern option are supervised in a Multiple Subjects setting by CalStateTEACH faculty and a site mentor throughout the program. Monthly observations are made by the candidate's assigned faculty member. The candidate confers regularly with the site mentor.

All candidates are assured of the opportunity to work with students with special needs and English learners in their placements so that they can meet the requirements of the program and the credential. Many activities require planning for and implementing instruction for English learners and students with special needs, so candidates gain significant background and experience. At least one term of the clinical experience sequence must be in a setting that includes English learners and students with special needs.

Candidates may not undertake placements in schools in which their children or other relatives are either enrolled or employed without the permission of the Regional Director.

Labor Related Issues: Fieldwork Participants/Student Teachers

From time to time, labor disputes occur in locations where candidates are completing fieldwork or student teaching assignments. If instructional services are being withheld at the school site because of a labor dispute, CalStateTEACH fieldwork participants and student teachers will NOT report to their assignment and must immediately notify their Faculty member and Regional Center. If the dispute lasts only a few days, then the CalStateTEACH candidate will return to the original placement. In the case of longer disputes, a new placement will be made through the Regional Center.

Expected Outcomes for Candidates in Early Field Clinical Experience (Term One)

- Become familiar with the school community, its values and its engagement with parents and the community, the context of learning.
- Engage in small group tutoring, teaching, and assessment.
- Observe an English Learner and analyze their learning challenges and the supports provided by the classroom teacher and the school.
- Use strategies to teach English and Standard English Learners in a tutoring or small group setting.
- Teach a culturally responsive lesson in a core curriculum subject.
- Describe the strategies that your mentor teacher uses to support and manage an inclusive classroom.
- Teach a lesson using adaptations for students with special needs.

Expected Outcomes for Candidates in the Initial Student Teaching Clinical Experience (Term Two)

- Engage in small group tutoring, teaching, and assessment.
- Demonstrate various classroom management strategies to engage students
- Teach a sequence of balanced literacy lessons, whole class, including:
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Teach effective lessons based on literacy for all students including:
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Implement an intervention for a struggling reader.
- Teach lessons in health and physical education.
- Teach mathematics lessons emphasizing problem solving, whole class.

Expected Outcomes for Candidates in the Student Teaching Clinical Experience (Term Three)

- Engage in small and large group tutoring, teaching, and assessment.
- Create short term and long term lesson plans and units.
- Diagnose the whole class, teach a lesson sequence, assess student learning and re-teach.
- Teach lessons in the visual and performing arts.
- Teach a series of science lessons that incorporate Next Generation Science

Standards and STREAM.

- Teach a lesson using appropriate technology.
- Design and implement a History/Social-Science interdisciplinary unit.
- Teach a sequence of lessons using appropriate technology.
- Manage collaborative learning.
- Student teach full time for a minimum of ten weeks.
- Assume full responsibility, including the planning and teaching of lessons for the class for four weeks solo teaching and/or co-teaching

Responsibilities of Candidates in Early Field Experience

Candidates participating in early field experience are expected to meet the following expectations:

- Conduct oneself in a professional and ethical manner at all times.
- Be punctual. Arrive at the school site at least 30 minutes prior to students arrival and remain 30 minutes after students are dismissed in order to plan with and get feedback from the mentor teacher. Report at the time designated to the appropriate authority in the school to which the candidate is assigned.
- Upon arrival, check in at the office. Sign in per school policy. Become acquainted with the school staff.
- Follow the CalStateTEACH Dress Code.
- Inform the mentor teacher, the school, and the CalStateTEACH faculty in advance of any absence. All absences will be made up before the candidate will receive credit for student teaching. No more than three absences are allowed in order to receive credit for the clinical experience.
- Observe the mentor teacher and supporting personnel (teacher specialists, counselors, administrators, etc.) at work. Learn pupils' names as soon as possible.
- Participate in school and classroom routines.
- Help to administer and grade tests as directed by the mentor teacher.
- Prepare bulletin boards and instructional displays.
- Participate in tutoring and planned teaching to small and large groups. Teach small group lessons and a limited number of large group lessons
- Come prepared for all activities, including CalStateTEACH faculty visits.
- Reflect upon teaching practice.
- Build rapport with the students.
- Establish professional relationships with school staff, administrators, and teachers.
- Accept constructive criticism in a positive manner.
- Maintain confidentiality; do not discuss student problems, parents, etc. outside of the classroom.
- Become acquainted with the material and personnel resources available to teachers in the building, department, and school. Respect school property.
- Communicate regularly and reliably with the mentor teacher and CalStateTEACH faculty. This includes checking email at least once per day and accessing electronic information as needed to remain informed of all CalStateTEACH expectations. (Do not check email or phone during clinical time.)
- Evaluate the school site, Mentor teacher, and Faculty member by completing appropriate forms.

Depending on the mentor teacher and partner school district policies, candidates may also be expected to:

- Establish professional relationships with parents.
- Study curriculum materials in the school curriculum center and district resource center.
- Participate in one or more community or school activities (e.g. Back to School Night, Open House, etc.).
- Participate in one or more school site professional development activities or trainings.

Responsibilities of Candidates in Student Teaching

Candidates participating in student teaching are expected to meet the following expectations:

- Conduct oneself in a professional and ethical manner at all times.
- Be punctual. Arrive at the school site at least 30 minutes prior to students' arrival and remain 30 minutes after students are dismissed in order to plan with and get feedback from the mentor teacher. Report at the time designated to the appropriate authority in the school to which the candidate is assigned.
- Upon arrival, always check in at the office. Sign in per school policy. Become acquainted with the school staff.
- Follow the CalStateTEACH Dress Code.
- Inform the mentor teacher, the school, and the CalStateTEACH faculty in advance of any absence. All absences will be made up before the candidate will receive credit for student teaching. No more than three absences are allowed in order to receive credit for the clinical experience.
- Give top priority in time, attention, and preparation to the student teaching assignment.
- Spend the beginning days of the student teaching assignment observing and assisting the mentor teacher in various assignments. Learn pupils' names as soon as possible.
- Begin teaching when the mentor teacher and CalStateTEACH faculty determine the candidate is ready.
- Determine with the mentor teacher the curricular units of teaching for which the candidate will be responsible.
- Prepare thoroughly and carefully for each day of teaching. Make long range and short range plans. Check unit plans, lesson plans, assignments, materials, etc., with the mentor teacher and CalStateTEACH faculty.
- Become acquainted with the cumulative records and any other files pertinent to the pupils with whom the candidate works. Maintain confidentiality; do not discuss student problems, parents, etc. outside of the classroom
- Become aware of the types of populations served by the assigned school.

- Know school regulations and rules regarding K-8 students, faculty, and parents
- Become acquainted with the material and personnel resources available to teachers in the building, department, and school. Respect school property.
- Attend faculty meetings, PTA and other school-related functions when school policies allow.
- Recognize that the mentor teacher and the school are legally responsible for his/her activities as well as the activities of pupils.
- Follow the schedule of the school district for vacations.
- Inform the CalStateTEACH faculty of any incidents that may potentially jeopardize the candidates' safety.
- Inform the mentor teacher of suspected child abuse. Report suspected child abuse in accordance with state law.
- Communicate regularly and reliably with the mentor teacher and CalStateTEACH faculty. This includes checking email at least once per day and accessing electronic information as needed to remain informed of all CalStateTEACH expectations. (Do not check email or phone clinical time.)
- Evaluate the school site, Mentor teacher, and Faculty member by completing appropriate forms.

CalStateTEACH Roles and Responsibilities in the Student Teaching Sequence of Clinical Experiences

General Roles and Responsibilities of Mentors in the Early Field Experience

Mentors in the early field experience assignment introduce candidates to the routine and duties of everyday teaching and provide candidates with experiences that will prepare them to take responsibility in an initial student teaching assignment.

Mentors who work with candidates in early field experience assignments are expected to:

- Share their experiences with candidates regarding:
 - Effective teaching strategies
 - Useful teaching materials
 - Classroom management techniques
 - Non-instructional tasks that teacher perform
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards. Scientifically based reading/language arts instruction should include:
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Scientifically based reading research
 - means research that applies rigorous, systemic, and objective procedures to obtain valid knowledge relevant to reading development, reading instruction, and reading difficulties; and
 - includes research that— (i) employs systemic, empirical methods that draw on observation or experiment; (ii) involves rigorous data analyses that are adequate to test the stated hypotheses and justify the general conclusions drawn; (iii) relies on measurements or observational methods that provide valid data across evaluators and observers and across multiple measurements and observations; and (iv) has been accepted by a peer-reviewed journal or approved by a panel of independent experts through a comparably rigorous, objective, and scientific review.
- Supervise candidates in classroom activities.
- Confer frequently with candidates to provide feedback on candidates' performance and to suggest improvements.
- Arrange for candidates to spend approximately one-half of the field experience participation in working directly with K-8 students.

- Complete an evaluation of the candidate's performance in collaboration with CalStateTEACH faculty.
- Be present at all times in the classroom during the day and observe small group lessons so as to be able to give specific and substantial feedback to the candidate and CalStateTEACH faculty, maintaining legal responsibility for the pupils at all times.

General Roles and Responsibilities of Mentors in Initial and Full-time Student Teaching

Mentors who work with candidates in the initial and full-time student teaching assignment introduce candidates to the routine and duties of everyday teaching and provide candidates with experiences that will prepare them to take responsibility in the student teaching assignment.

Mentors who work with candidates in initial and full-time assignments are expected to:

- Help candidates become familiar with the school by introducing them to other faculty members, inviting them to faculty affairs and P.T.A or other organized parent group meetings, and extending other courtesies such as inclusion in pre-service, in-service, and orientation meetings. The mentor teacher should help the teacher candidate become acquainted with the school plan and as far as possible the total school program.
- Inform candidates of the school calendar (holidays, special events, etc.).
- Prepare the K-8 students for the coming of candidates; create an atmosphere of acceptance by introducing them as a fellow teacher and co-worker.
- Help candidates to understand the capacities and goals of students in the class. Acquaint them with the cumulative records. Have candidates participate in evaluating pupil progress, reporting to parents, and parent conferences.
- Carry out the policies of the school and district administration regarding student teaching. Be present at all times in the classroom during the day, maintaining legal responsibility for the pupils at all times.
- Have frequent evaluative discussions with candidates regarding the progress of the class, the candidates' growth, and the criteria used to evaluate growth.
- Provide time for conferences and/or correspondence with CalStateTEACH faculty following each visit/observation and make specific comments during the conferences regarding the behavior, achievements, and performance of candidates.
- Require lesson plans from candidates, including daily plans, overviews, and long range plans prior to instruction. These should be reviewed with candidates before their implementation so that desired changes can be made.
- Ensure that candidates have adequate time to prepare before they take over the class. Pace candidates so they become neither overwhelmed nor bored.
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards

- Phonics and structured reading development
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
- Model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Help the teacher candidate develop proficiency in the techniques of individual and group guidance. Try to provide an opportunity for the teacher candidate to participate in co-curricular activities.
- Keep the principal and CalStateTEACH faculty informed of the progress of the teacher candidate. If problems arise, seek solutions before the problems become too severe.
- Complete an evaluation of the candidate's performance in collaboration with CalStateTEACH faculty.
- Verify candidate clinical experience log.
- If there are any issues or events that could potentially jeopardize the safety of the teacher candidate, report the incident to the site administrator and the CalStateTEACH faculty within one business day.

Roles and Responsibilities of CalStateTEACH Faculty in the Student Teaching Clinical Experience

- Participate in and ensure the selection and support of appropriate site-based mentors.
- Orient mentors and principals to the CalStateTEACH program and its requirements; distribute appropriate program materials.
- Provide formative and summative assessment of classroom performance and term evaluation documents.
- Conduct a minimum of 6 regularly scheduled observations of the CalStateTEACH candidate's classroom, observing each candidate at least once per month during a term and conducting a pre-conference and a post conference for each observation.
- Advise candidates about clinical experience program requirements and procedures.
- Serve as a liaison to school-site personnel. Evaluate candidates' advancement to Student Teaching.
- Hold an orientation meeting with the mentor prior to the teacher candidate beginning their placement.
- Confer as frequently as needed with mentor teachers regarding the candidate's progress.
- Inform the mentor teacher of the evaluation procedure and due dates.

General Roles and Responsibilities for CalStateTEACH Regional Director in the Student Teaching Clinical Experience

- Maintain official contact among the Regional Center, the host CSU campus, and the statewide program administrators.
- Oversee relationships with public school site administrators and faculty
- Assign each CalStateTEACH candidate to a Faculty member for clinical supervision.
- Approve all field placements.
- Provide overall coordination of the CalStateTEACH student placement, and selection of mentors related to the Regional Center.
- Maintain the Memoranda of Understanding (MOUs) with clinical placements.

General Roles and Responsibilities for Site Principal and/or School Administrator in the CalStateTEACH Student Teaching Clinical Experience

- Approve all mentor assignments.
- Support mentor teacher's commitment to confer, observe, and provide constructive feedback and other support services to the CalStateTEACH candidate
- Provide opportunities for the CalStateTEACH candidate to visit other classrooms. Assists the CalStateTEACH candidate in gaining sufficient breadth of experience to meet all the program requirements
- Ensure mentor teachers provide opportunities for candidates to learn model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Ensure mentor teachers provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
- Ensure mentor teachers model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Carry out the policy of the district with regard to candidates gaining pre-service experience in the school. Keep the district office informed, as necessary.
- Provide candidates with an overall view of the school.
- Indicate staff meetings, professional meetings, and committee meetings which will be open to candidates and/or which they will be expected to attend.
- Use the services of the CalStateTEACH faculty to communicate openly and freely, asking for information and advice, and deciding who shall take certain responsibilities.
- Be willing to give time for conferences with candidates and CalStateTEACH faculty.
- Report any incident that may jeopardize the safety of the teacher candidate to the CalStateTEACH faculty within one business day of the incident.

The University Intern Option

This option allows qualified candidates to work full-time, in charge of a class, while completing the program.

Intern Credential

Working as an intern in a California public school requires an Intern Credential. Prior to becoming eligible for a CalStateTEACH Intern Credential, all candidates must:

- Show evidence of subject matter competence or have a passing CSET score.
- Have completed a U.S. Constitution course.
- Have an offer of a teaching position in a multiple subject classroom in which the core curriculum (reading and language arts, history and social science, mathematics, and science) is taught to all students. Typically, the teaching position offer is met by teaching in an elementary classroom in a K-6 setting. Middle school instructors teaching the four core curriculum areas mentioned above may also qualify. All other positions will be considered on a case by case basis.
- Complete 160 hours of pre-intern professional development coursework.

CalStateTEACH requires that all eligible public school teachers who have successfully met the Intern Credential requirements apply for a CalStateTEACH Intern Credential. Intern Credentials are filed through the Regional Center. Your Regional Center will assist you in the Intern Credential application filing process.

Employment and Labor Related Issues: Public School Teachers

In the event that your employment ceases—either because the district/school has terminated you or because you have chosen to resign—your continuance in the program is subject to review. It is your obligation to notify your Faculty member immediately if your employment terminates and to develop a plan for your continuation in the program, which your Faculty member and Regional Director must approve. *If you are granted a CalStateTEACH Intern Credential and are not enrolled in the CalStateTEACH program, your credential shall be withdrawn and your employment may be affected. The CalStateTEACH program will file a request with the California Commission on Teacher Credentialing to withdraw the Intern Credential.*

If you are laid off due to economic circumstances, please notify your Faculty member immediately so that the program can withdraw your intern credential on the date of your layoff thereby preserving time on your intern credential in the event that you are employed in another public school.

In the unlikely event that a teacher strike or labor slowdown occurs in the school at which you are employed, you should consult your Faculty member and Regional Director for advice. Remember you are both an employee of the district/school and a CalStateTEACH candidate. You should consider how your decision will likely affect not only your continuing employment, but also your academic work. Should a labor

disruption take place and your continuing classroom experience is interrupted, it is your obligation to notify your Faculty member immediately.

Placements

Candidates must have experience at both the primary and upper elementary classroom. Candidates must participate in two or more of the following grade spans: K-2, 3-5, and 6-8. For instance, a CalStateTEACH university intern candidate teaching in a primary classroom (grades K-2) will be required to gain sufficient experience in an upper grade classroom (grades 3-8) to demonstrate the completion of all required program activities and outcomes. Candidates who are teachers of record while they are in the program must have a classroom experience different from the one in which they teach to meet this requirement.

Supplementary Classroom Experience

In some instances, university interns will be required to teach while they are off-track or during the summer in a classroom other than their own. This may be completed on a volunteer basis or as a paid teacher. Supplementary placements provide opportunities to fulfill the CCTC requirements for both primary and upper grade experiences.

If a CalStateTEACH Intern Option candidate teaches in a setting which is not culturally and/or linguistically diverse and does not contain English learners, that candidate will be required to spend a fifteen day placement in a multiple subject public school setting with a Site Mentor who possesses an English Learner Authorization.

If a CalStateTEACH Intern Option candidate teaches in a school that is not low performing or hard to staff, that candidate will be required to gain experience through a fifteen day placement in a low performing or hard to staff school or a high poverty, achievement gap closing school.

If a CalStateTEACH Intern Option candidate teaches in a school in which the composition of the student body is more than 75% the same racial/ethnic group as the candidate, that candidate will be required to exchange classrooms with another teacher, or otherwise gain sufficient experience (15 days) to complete all relevant program activities and outcomes requiring working with learners from diverse backgrounds.

Expected Outcomes for University Intern Candidates in the Pre-service Program

- Become familiar with the school community, its values and its engagement with parents and the community, the context of learning.
- Use data from the ELPAC to develop strategies to teach English and Standard English Learners.
- Use diagnostic data and formative assessment to develop strategies to teach students with special needs included in the general education classroom.

- Demonstrate management strategies to establish and nurture an inclusive classroom. Establish and practice routines and procedures.
- Use key universal access strategies to teach mathematics lessons.
- Incorporate culturally responsive pedagogy into teaching core content area instruction.

Expected Outcomes for University Intern Candidates in Initial Student Teaching of the Clinical Experience

- Demonstrate management strategies for students with behavioral issues.
- Teach culturally responsive lessons.
- Teach lessons using universal design for learning.
- Teach a sequence of balanced literacy lessons.
- Diagnose and plan an intervention for a struggling reader.
- Create and teach collaborative lessons.
- Teach a lesson using appropriate technology.
- Teach a series of science lessons that incorporate Next Generation Science Standards and STREAM.
- Teach mathematics lessons emphasizing problem solving, whole class.

Expected Outcomes for University Intern Candidates in Student Teaching of the Clinical Experience

- Create short term and long term lesson plans and units.
- Diagnose the whole class, teach a lesson sequence, assess student learning and re-teach.
 - Phonics and structured reading development
 - Phonological awareness
 - Phonics
 - Oral Reading Fluency and Reading Comprehension Strategies in reading and writing
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Teach effective lessons based on literacy for all students including:
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Design and implement a History/Social-Science interdisciplinary unit.
- Teach lessons in the visual and performing arts.
- Teach lessons in health and physical education.
- Teach a sequence of lessons using appropriate technology.
- Manage collaborative learning
- Provide models of explicitness, differentiation, and implementation of the science of reading and motivation

Responsibilities of University Interns in the Clinical Sequence of Clinical Experiences

University Intern Candidates participating in clinical experience are expected to meet the following expectations:

- Conduct oneself in a professional ethical manner at all times.
- Be punctual. Report at the time designated by the appropriate authority in the school to which the candidate is assigned.
- Arrange schedule so that you have two to four hours a week to work with site mentor(s) for a total of 144 annual hours. Meet another hour a work with an ELA specialist for a total of 45 annual hours. (This may be your mentor teacher if qualified.)
- Upon arrival, always check in at the office. Sign in per school policy. Become acquainted with the school staff.
- Follow the CalStateTEACH Dress Code.
- Inform the school, and the CalStateTEACH faculty in advance of any absence. All absences will be made up before the candidate will receive credit for the clinical experience. No more than three absences are allowed in order to receive credit for the clinical experience.
- Prepare thoroughly and carefully for each day of teaching. Make long range and short range plans. Check unit plans, lesson plans, assignments, materials, etc., with the site mentor and CalStateTEACH faculty.
- Learn pupils' names as soon as possible. Become acquainted with the cumulative records and any other files pertinent to students. Maintain confidentiality; do not discuss student problems, parents, etc. outside of the classroom
- Become aware of the types of populations served by the assigned school.
- Know school regulations and rules regarding students, faculty, and parents.
- Become acquainted with the material and personnel resources available to teachers in the building, department, and school. Respect school property.
- Attend faculty meetings, PTA and other organized parent groups, and other school-related functions.
- Follow the schedule of the school district for vacations.
- Inform the CalStateTEACH faculty of any incidents that may potentially jeopardize candidates' safety.
- Report suspected child abuse in accordance with state law.
- Communicate regularly and reliably with the site mentor and CalStateTEACH faculty. This includes checking email at least once per day and accessing electronic information as needed to remain informed of all CalStateTEACH expectations. (Do not check email during clinical time.)
- Evaluate the school site, Site Mentor, and CalStateTEACH Faculty by completing appropriate forms.

CalStateTEACH Roles and Responsibilities in the University Intern Sequence of Clinical Experiences

Roles and Responsibilities for Mentors in the University Intern Clinical Experience

- Meet CalStateTEACH intern candidates two to four hours a week for a total of 144 annual hours (school year). Provide another hour of support for interns without the full English Language Authorization (ELA) for a total 45 annual hours.
 - Introduce CalStateTEACH candidates to the routines and duties of everyday teaching, including the reading and understanding of cumulative student records.
 - Assist in the establishment of an inclusive classroom environment.
 - Demonstrate, model and coach CalStateTEACH candidates regarding effective teaching strategies, useful teaching materials, classroom management techniques, and non-instructional tasks that teachers must perform.
 - Provide targeted support in the teaching of English Learners and students with special needs in the general education classroom.
 - Demonstrate English Language Development (ELD) strategies.
 - Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
 - Provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
 - Model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
 - Introduce CalStateTEACH candidates to the school district procedures for the English Language Proficiency Assessments for California (ELPAC) and assist them in using the data to plan and manage ELD instruction.
 - Make needed materials, texts, and equipment available to CalStateTEACH candidates.
 - Provide support, training, mentoring, coaching, and feedback for CalStateTEACH candidates.
 - Assist CalStateTEACH candidates with planning and reviewing lesson plans before implementation.
 - Observe class presentations, providing appropriate and constructive feedback orally and in writing to CalStateTEACH candidates.
 - Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted academic content standards; and model instruction based on the state-adopted academic content standards.

- Assist the CalStateTEACH candidate in meeting professional standards.
- Participate in the monthly conferences with the CalStateTEACH candidate and Faculty member.
- Verify clinical experience log.
- Complete an evaluation of the candidate's performance in collaboration with CalStateTEACH faculty.

Roles and Responsibilities of CalStateTEACH Faculty in the University Intern Clinical Experience

- Provide formative and summative assessment of classroom performance and term evaluation documents.
- Conduct a minimum of 6 regularly scheduled observations/visits to the CalStateTEACH candidate's classroom, visiting/observing each candidate at least once per month during a term and conducting a pre-conference and a post conference for each observation.
- Advise candidates about clinical experience program requirements and procedures.
- Serve as a liaison to school-site personnel.
- Participate in and ensure the selection and support of appropriate site mentors.
- Orient Mentors, and principals to the CalStateTEACH program and its requirements; distribute appropriate program materials.
- Hold an orientation meeting with the Mentor.
- Confer as frequently as needed with the site mentors regarding the candidate's progress.
- Inform the mentors of the evaluation procedure and due dates.

General Roles and Responsibilities for CalStateTEACH Regional Director in the University Intern Clinical Experience

- Oversee relationships with public school site administrators and faculty.
- Assign each CalStateTEACH candidate to a Faculty member for clinical supervision.
- Approve all field placements.
- Provide overall coordination of the CalStateTEACH candidate placement and selection of Mentors related to the Regional Center.
- Maintain the Memoranda of Understanding (MOUs) with school district partners.

General Roles and Responsibilities for Site Principal and/or School Administrator in the CalStateTEACH University Intern Clinical Experience

- Approve all mentor assignments. Ensures that CalStateTEACH university intern has a mentor before the first day of class.
- Support mentors' commitment to confer, observe, and provide constructive feedback and other support services to the CalStateTEACH candidate.
- Provide opportunities for the CalStateTEACH candidate to visit other classrooms.
- Assist the CalStateTEACH candidate in gaining sufficient breadth of experience to

meet all of the program requirements. Provide candidates with an overall view of the school.

- Make it possible for the mentors to confer with CalStateTEACH candidates at mutually convenient times.
- Use the services of the CalStateTEACH faculty to communicate openly and freely, asking for information and advice, and deciding who shall take certain responsibilities.
- Being willing to give time for conferences with candidates and CalStateTEACH faculty.
- Report any incident that may jeopardize the safety of the teacher candidate. The report to the CalStateTEACH faculty must be within one business day of the incident.

The Private School Teacher Option

This option allows qualified private school teachers of record to work full-time, in charge of a class, while completing the program.

Labor Related Issues: Private School Teachers

In the event that your employment ceases—either because the school has terminated you or because you have chosen to resign—your continuance in the program is subject to review. It is your obligation to notify your Faculty member immediately if your employment terminates and to develop a plan for your continuation in the program, which your Faculty member and Regional Director must approve.

In the unlikely event that a teacher strike or labor slowdown occurs in the school at which you are employed, you should consult your Faculty member and Regional Director for advice. Remember you are both an employee and a CalStateTEACH candidate. You should consider how your decision will likely affect not only your continuing employment, but also your academic work. Should a labor disruption take place and your continuing classroom experience is interrupted, it is your obligation to notify your Faculty member immediately.

Placements

Candidates must have experience at both the primary and upper elementary classroom. Candidates must participate in two or more of the following grade spans: K-2, 3-5, and 6-8. For instance, a CalStateTEACH candidate teaching in a primary classroom (grades K-2) will be required to gain sufficient experience in an upper grade classroom (grades 3-8) to demonstrate all required program activities and outcomes. Candidates who are teachers of record while they are in the program must have a classroom experience different from the one in which they teach to meet this requirement.

Supplementary Classroom Experience

Private school teachers will be required to teach while they are off-track or during the summer in a classroom other than their own. This may be completed on a volunteer basis or as a paid teacher. Supplementary placements provide opportunities to fulfill the CCTC requirements for both primary and upper grade experiences.

If a CalStateTEACH candidate teaches in a non-public school, that candidate will be required to spend a five-week placement in a public school in a multiple subject classroom. If the employment setting does not include experience in a culturally and/or linguistically diverse setting in which beginning reading is taught, the five-week experience must include these specifications. The CalStateTEACH faculty member and Regional Director will coordinate this placement and complete the appropriate documentation.

If a CalStateTEACH candidate teaches in a setting which is not culturally and/or linguistically diverse and does not contain English learners, that candidate will be required to spend a five-week placement in a multiple subject public school setting in with a Site Mentor with an English Learner Authorization.

If a CalStateTEACH candidate teaches in a school that is not low performing or hard to staff, that candidate will be required to gain experience through a five week placement in a low performing or hard to staff school or a high poverty, achievement gap closing school.

If a CalStateTEACH candidate teaches in a school in which the composition of the student body is more than 75% the same racial/ethnic group as the candidate, that candidate will be required to exchange classrooms with another teacher, or otherwise gain sufficient experience (25 days) to complete all relevant program activities and outcomes requiring working with learners from diverse backgrounds.

Expected Outcomes for Private School Teachers of Record Early Field Clinical Experience

- Become familiar with the school community, its values and its engagement with parents and the community, the context of learning.
- Use data from the ELPAC to develop strategies to teach English and Standard English Learners.
- Use diagnostic data and formative assessment to develop strategies to teach students with special needs included in the general education classroom.
- Demonstrate management strategies to establish and nurture an inclusive classroom. Establish and practice routines and procedures.
- Use key universal access strategies to teach mathematics lessons.
- Incorporate culturally relevant pedagogy into core content area instruction.

Expected Outcomes for Private School Teachers of Record in Initial Student Teaching of the Clinical Experience

- Demonstrate management strategies for students with behavioral issues.
- Teach culturally responsive lessons.
- Teach lessons using universal design for learning.
- Teach a series of Science lessons that incorporate Next Generation Science Standards and STREAM.
- Teach a sequence of balanced literacy lessons.
- Diagnose and plan an intervention for a struggling reader.
- Create and teach collaborative lessons.
- Teach lessons using appropriate technology.
- Teach mathematics lessons emphasizing problem solving.

Expected Outcomes for Private School Teachers of Record in Student Teaching of the Clinical Experience

- Create short term and long term lesson plans and units.
- Diagnose the whole class, teach a lesson sequence, assess student learning and re-teach. Each lesson should include:
 - Phonics and structured reading development
 - Phonological awareness
 - Phonics
 - Oral Reading Fluency and Reading Comprehension Strategies in reading and writing
 - Incorporation of California Dyslexia Guidelines
 - Incorporation of elements of California Comprehensive Plan
- Provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
- Teach effective lessons based on literacy for all students including:
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
- Design and implement a History/Social-Science interdisciplinary unit.
- Teach lessons in the visual and performing arts.
- Teach lessons in health and physical education.
- Teach a sequence of lessons using appropriate technology.
- Manage collaborative learning.

Responsibilities of Private School Teachers in the Clinical Sequence of Clinical Experiences

Private School Teacher Candidates participating in clinical experience are expected to meet the following expectations:

- Conduct oneself in a professional ethical manner at all times.
- Be punctual. Report at the time designated by the appropriate authority in the school to which the candidate is assigned.
- Arrange schedule so that you have two to four hours a week to work with site mentor(s) for a total of 144 annual hours. Meet another hour a week with an ELA specialist for a total of 45 annual hours.
- Upon arrival, always check in at the office. Sign in per school policy. Become acquainted with the school staff.
- Follow the CalStateTEACH Dress Code.
- Inform the school, and the CalStateTEACH faculty in advance of any absence. All absences will be made up before the candidate will receive credit for the clinical experience. No more than three absences are allowed in order to receive credit for

the clinical experience.

- Prepare thoroughly and carefully for each day of teaching. Make long range and short range plans. Check unit plans, lesson plans, assignments, materials, etc., with the site mentor and CalStateTEACH faculty.
- Learn pupils' names as soon as possible. Become acquainted with the cumulative records and any other files pertinent to students. Maintain confidentiality; do not discuss student problems, parents, etc. outside of the classroom
- Become aware of the types of populations served by the assigned school.
- Know school regulations and rules regarding students, faculty, and parents.
- Become acquainted with the material and personnel resources available to teachers in the building, department, and school. Respect school property.
- Attend faculty meetings, PTA and other organized parent groups and other school-related functions.
- Follow the schedule of the school district for vacations.
- Inform the CalStateTEACH faculty of any incidents that may potentially jeopardize candidates' safety.
- Report suspected child abuse in accordance with state law.
- Communicate regularly and reliably with the site mentor and CalStateTEACH faculty. This includes checking email at least once per day and accessing electronic information as needed to remain informed of all CalStateTEACH expectations. (Do not check email during clinical time.)
- Evaluate the school site, Site Mentor, and CalStateTEACH Faculty by completing appropriate forms.

CalStateTEACH Roles and Responsibilities in the Private School Teacher Sequence of Clinical Experiences

Roles and Responsibilities for Site Mentors in the Private School Teacher Clinical Experience

- Meet CalStateTEACH intern candidates two to four hours a week.
- Introduce CalStateTEACH candidates to the routines and duties of everyday teaching, including the reading and understanding of cumulative student records.

- Provide targeted support in the teaching of English Learners and students with special needs in the general education classroom.
- Demonstrate English Language Development (ELD) strategies and Designated and Integrated ELD instruction.
- Introduce CalStateTEACH candidates to the school district procedures for the English Language Proficiency Assessments for California (ELPAC) and assist them in using the data to plan and manage ELD instruction.
- Make needed materials, texts, and equipment available to CalStateTEACH candidates.
- Provide support, training, mentoring, coaching, and feedback for CalStateTEACH

candidates.

- Assist CalStateTEACH candidates with planning and reviewing lesson plans before implementation.
- Observe class presentations, providing appropriate and constructive feedback orally and in writing to CalStateTEACH candidates.
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted academic content standards; and model instruction based on the state-adopted academic content standards.
- Assist the CalStateTEACH candidate in meeting professional standards.
- Participate in the monthly conferences with the CalStateTEACH candidate and Faculty member.
- Complete an evaluation of the candidate's performance in collaboration with CalStateTEACH faculty.

Roles and Responsibilities of CalStateTEACH Faculty in the Private School Teacher Clinical Experience

- Provide formative and summative assessment of classroom performance and term evaluation documents.
- Conduct a minimum of 6 regularly scheduled observations/visits to the CalStateTEACH candidate's classroom, visiting/observing each candidate at least once per month during a term and conducting a pre-conference and a post conference for each observation.
- Advise candidates about clinical experience program requirements and procedures.
- Serve as a liaison to school-site personnel.
- Participate in and ensure the selection and support of appropriate site mentors.
- Orient Site Mentors, and principals to the CalStateTEACH program and its requirements; distribute appropriate program materials.
- Hold an orientation meeting with the Site Mentor.
- Confer as frequently as needed indicate with the site mentors regarding the candidate's progress.
- Inform the site mentors of the evaluation procedure and due dates.

General Roles and Responsibilities for CalStateTEACH Regional Director in the Private School Teacher Clinical Experience

- Oversee relationships with school site administrators and faculty.
- Assign each CalStateTEACH candidate to a Faculty member for clinical supervision.
- Approve all field placements.
- Provide overall coordination of the CalStateTEACH candidate placement and selection of Mentors, related to the Regional Center.
- Maintain the Memoranda of Understanding (MOUs) with school partners.

General Roles and Responsibilities for Site Principal and/or School Administrator in the CalStateTEACH Private School Teacher Clinical Experience

- Approve all site mentor assignments. Ensures that CalStateTEACH candidate has a site mentor.
- Support mentors' commitment to confer, observe, and provide constructive feedback and other support services to the CalStateTEACH candidate.
- Provide opportunities for the CalStateTEACH candidate to visit other classrooms.
- Assist the CalStateTEACH candidate in gaining sufficient breadth of experience to meet all the program requirements. Provide candidates with an overall view of the school.
- Make it possible for the site mentors to confer with CalStateTEACH candidates at mutually convenient times.
- Use the services of the CalStateTEACH faculty to communicate openly and freely, asking for information and advice, and deciding who shall take certain responsibilities.
- Be willing to give time for conferences with candidates and CalStateTEACH faculty.
- Report any incident that may jeopardize the safety of the teacher candidate. The report to the CalStateTEACH faculty must be within one business day of the incident.

Qualifications for Mentors

Mentors Hosting Early Field Experience Participants (Term One)

- Hold an appropriate California credential (Multiple Subject)
- Have completed three years of successful teaching experience
- Have the English Language Authorization, expertise, and experience working with English learners
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guideline
 - Incorporation of elements of California Comprehensive State Literacy Plan
- Ensure mentor teachers provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
- Ensure mentor teachers model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
 - Participate in mentor teacher training
- Allow Field Experience Participants opportunities to work with classroom students
- Utilize a clinical supervision model when working with Student Teachers

Mentors Hosting Student Teachers (Terms Two and Three)

- Hold an appropriate California credential (Multiple Subject)
- Have completed three years of successful teaching experience
- Have the English Language Authorization, expertise, and experience working with English learners
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards

- Phonics and structured reading development
- Incorporation of California Dyslexia Guideline
- Incorporation of elements of California Comprehensive State Literacy Plan
- Ensure mentor teachers provide clinical placement opportunities for teacher candidate to demonstrate an understanding and practice literacy standards and concepts and strategies identified in the California Dyslexia Guidelines
- Ensure mentor teachers model and provide opportunities for candidates to effectively teach effective literacy for all students, specifically
 - Foundational skills
 - Meaning making
 - Language Development
 - Effective Expression
 - Participate in mentor teacher training
- Allow Field Experience Participants opportunities to work with classroom students
- Utilize a clinical supervision model when working with Student Teachers

Mentors Hosting Interns and Private School Teachers of Record

- Hold an appropriate California credential (Multiple Subject)
- Have completed three years of successful teaching experience
- Have the English Language Authorization, expertise, and experience working with English learners
- Model balanced and comprehensive reading/language arts instruction; effectively teach the state-adopted core curriculum; and model instruction based on the state-adopted academic content standards
 - Phonics and structured reading development
 - Incorporation of California Dyslexia Guideline

Dress Code

CalStateTEACH candidates are required to dress and act professionally. An appropriate appearance is defined as clothing that models professionalism for P-12 students, parents and community. The intent of our dress code is to maintain professional standards and enhance the probability of candidates' success in employment.

Low rise pants, tops that do not reach below the top of pants or plunge low, spaghetti straps, tube tops, halter tops, jeans, shorts, mini-skirts, frayed or tattered garments, offensive odors or fragrances and unkempt hair are inappropriate. Attire that is revealing or detracts from the professional role of a teacher is also unacceptable. Tattoos are not to be visible and tongue studs are not to be worn during student teaching. Also, if you know that you are doing an activity that may be messy; we recommend lab coats and/or aprons. Special event days, specified dress-down days, or planned activity days may allow changes in the CalStateTEACH dress code.

Candidates should be sure to meet or exceed local school district dress and safety codes. If the local school district code is more casual than CalStateTEACH guidelines, our guidelines supersede them. If the district or school code is more formal, the local guidelines supersede ours. Candidates may be asked to leave their assignment if appearance is not appropriate or if a professional ethical demeanor is not maintained.
